Summary

This document provides End of Sale notification for the Avaya 3641/3645/6120/6140 WLAN Handsets. Effective 8-Dec-2014, Avaya will no longer sell (make commercially available) the material codes listed in the table below in the EMEA, APAC, and CALA regions. The material codes will continue to be available in the U.S.A and Canada. This restriction in sales is necessitated by changes in WLAN regulatory requirements which come into effect on 1 January 2015 and cannot be satisfied by these WLAN Handsets.

Since this End of Sale does not affect all countries, an ASL (Authorized Ship List) mechanism will be used. Avaya will no longer accept orders from EMEA/APAC/CALA countries as of 8 December 2014. The affected products will be removed from Avaya configuration tools on the same date.

Accessories (batteries, chargers, power supplies, clips, holsters, AVP/OAI/2245/2246 servers) continue to be offered for sale to all countries in all countries.

Discontinued Order Codes – EMEA / APAC / CALA

Discontinued Codes:

Migration Strategy

For IP Office™ or Avaya Aura® Communication Manager systems

Solutions from DevConnect partners:

Customers can consider using SIP-based WLAN handsets which have undergone Avaya compatibility testing (http://www.devconnectprogram.com/site/global/compliance_testing/application_notes/index.qsp.)

The following solutions are available from DevConnect Marketplace featured partners:

- Spectralink 84-Series (https://www.devconnectmarketplace.com/spectralink)
- Spectralink 87-Series (https://www.devconnectmarketplace.com/spectralink)
- Ascom i62 (https://www.devconnectmarketplace.com/ascom/ascom-vowifi)

The following solutions are available through the Avaya Select Product Program:

- Spectralink 84-Series (https://www.devconnectmarketplace.com/spectralink)
- Spectralink 87-Series (https://www.devconnectmarketplace.com/spectralink)

Customers should consult with their Avaya Account Manager or Authorized Channel Partner to determine the best approach to be used.
