

Related Business Continuity Planning Resources

The sites provided below are recognized in the Business Continuity Community as places to gain experience, expert advice and best practices to prepare for a disaster or in the case of disaster recovery.

The Disaster Recovery Institute International

The goals of DRI® International are to:

- **promote a base of common knowledge** for the business continuity planning/disaster recovery industry through education, assistance, and publication of the standard resource base;
- **certify qualified individuals** in the discipline; and
- **promote the credibility and professionalism** of certified individuals.

DRI International and the Business Continuity Institute publish the Professional Practices for Business Continuity Planners as the industry's international standard.

The Business Continuity Institute

The Business Continuity Institute provides recognition and professional qualifications for business continuity practitioners. Represented in 19 countries, membership brings significant benefits to professionals world-wide, recognition, networking, education and knowledge. Members also benefit from discounts for conferences, training and workshops, on books and publications and a number of other benefits.

Continuity Insights

Continuity Insights, with its management-level approach, encourages business leaders to embrace and apply business continuity practices within their organizations. The Continuity Insights Management Conference is the only forum where the discussion of continuity strategies takes center stage. Plenary sessions categories include Leadership, Enterprise-Wide Planning, Security et al., and underscore the distinctive educational approach to this conference. Numerous other breakout sessions, workshops and special events add to the education experience.

CPM Global Assurance

CPM Magazine has evolved into a paid, subscription-based print newsletter called CPM Global Assurance. It advocates a close synergistic relationship among business continuity, security, and emergency management all under the umbrella of good corporate governance.
